Integrating Libguides and Libanswers into course curriculum for student success

Shenise McGhee, M.S.L.S, M.S.H.E.
Associate Librarian
University of Arkansas at Pine Bluff
John Brown Watson Memorial Library System
Intended Learning Outcomes

- Curriculum must be systematically aligned with the program objectives.
- Clarifying the relationship between what students do in their courses and what faculty expect them to learn.
- Curriculum with program objectives allows for the identification of gaps which can then lead to curricular changes to improve student learning opportunities.
- Creating a Research Guide targeted your course's research assignments.
- Alerting students to the latest books, articles and databases relevant to their research topics.
Improve Retention, Graduation Rates, Academic Departments and Programs

- Marketing your Department & Programs to make sure that the degree requirements and the value of the degree are clearly and accurately communicated.
- Adequate preparation to meet the academic demands of college coursework.
- Preventing disinterest in or boredom with the content of courses of their method of deliver.
Benefits integrating Libguides into course curriculum

- **Embedded Librarian** - In your course is a great way to provide more consistent and personalized assistance for the instructor.

- **Curriculum & Instruction** - Revise your curriculum and teaching approaches to foster academic consistency and student engagement.

- **Assessment and Feedback** - Help students gain a clear and timely understanding of their performance so that they can take appropriate steps.
Integrated Libguides into Blackboard Course Syllabi
Integrated Libanswers into Ask-A-Librarian

- The library has many ways to assist student and faculty to make sure find what you need.
- 24/7 access to answer your research questions.
- Having trouble finding a specific resource?
- Can't find the Database that fits your research?
Libguides for Academic Assessment

- Evaluate how well the libguides support the needs, in order to improve, services and resources.
